MEET LOSI

HI, I'M LOSI.

No call center. No dispatcher. Just me.

20+ yrs
in the trade

Since 2015
running my own shop · CSLB #1002637

4 guys
plus a crew I trained myself for the big ones

Union City
out to San Mateo and San Jose. I don't limit myself.

HOW I WORK

MOST OF MY WORK IS WORD OF MOUTH.

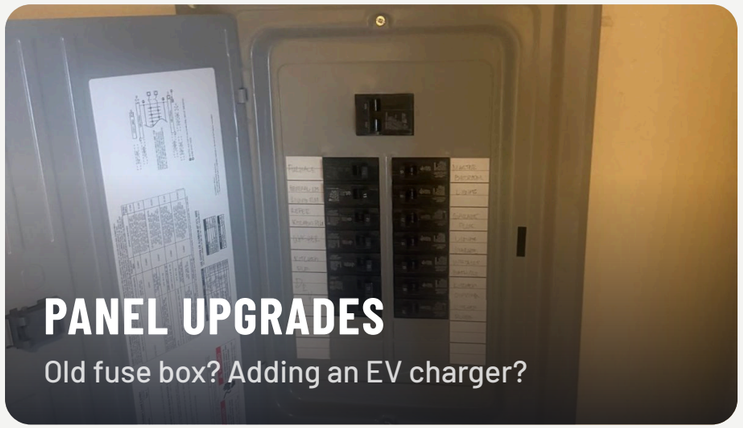

1. I SHOW UP WHEN I SAY I WILL
2. I'LL GIVE IT TO YOU STRAIGHT
3. PERMITS PULLED. EVERY JOB.

> *"Fixing something that hasn't worked in years and having the client cheer you on. That just makes your day."*

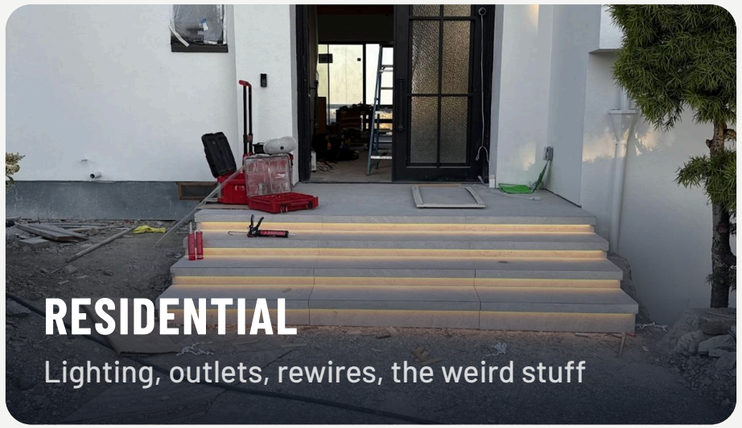

WHAT I DO

IF IT RUNS ON POWER, I GOT YOU.

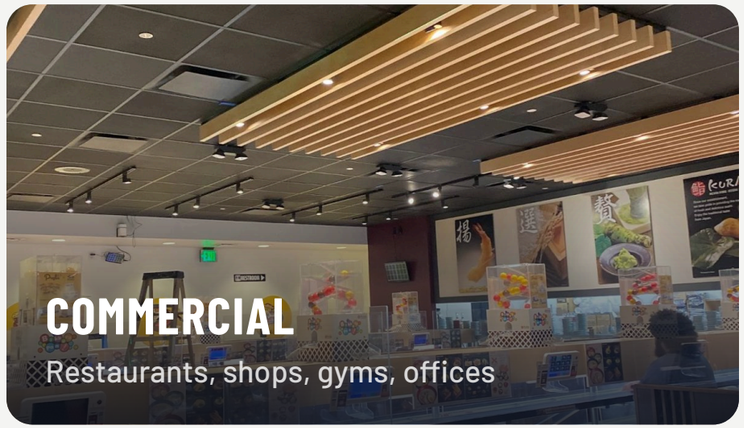

PANEL UPGRADES

Old fuse box? Adding an EV charger?

RESIDENTIAL

Lighting, outlets, rewires, the weird stuff

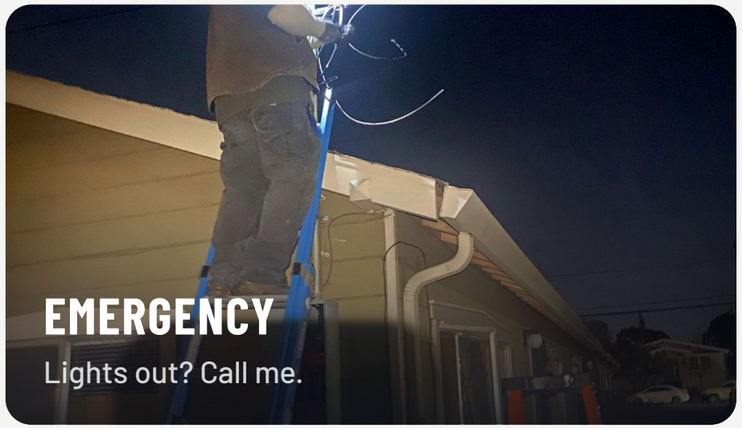

COMMERCIAL

Restaurants, shops, gyms, offices

NEW CONSTRUCTION & REMODELS

From bare studs to final inspection

EMERGENCY

Lights out? Call me.

CUSTOM WORK

My favorite part of the job

CUSTOM WORK

“When you get into custom work, the whole electrical is an art.”

LOSI

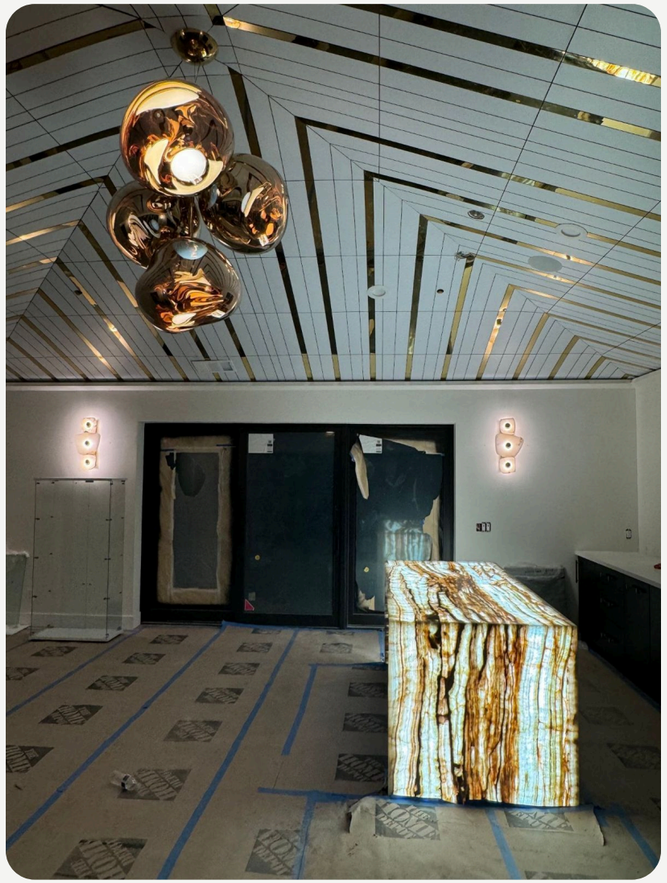

CUSTOM RESIDENTIAL

MAKING THINGS GLOW.

Backlit onyx walls and a lit-up island.
You won't find a single wire.

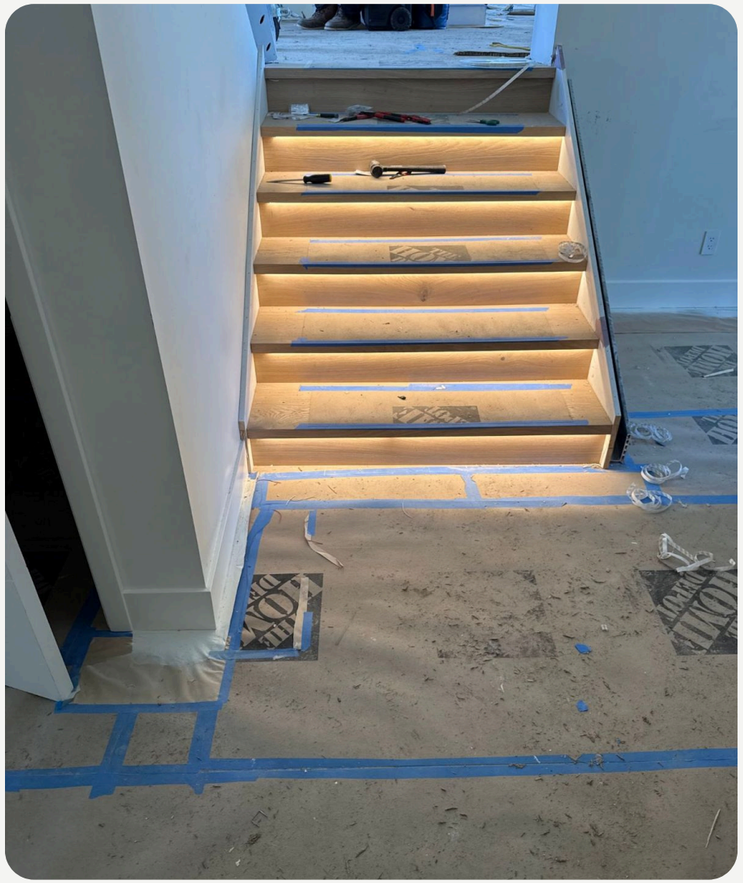

DESIGNING LIGHTING

LIGHT IT UP RIGHT.

I love designing lighting. Where it lands, what it’s for, no wires tangled everywhere.

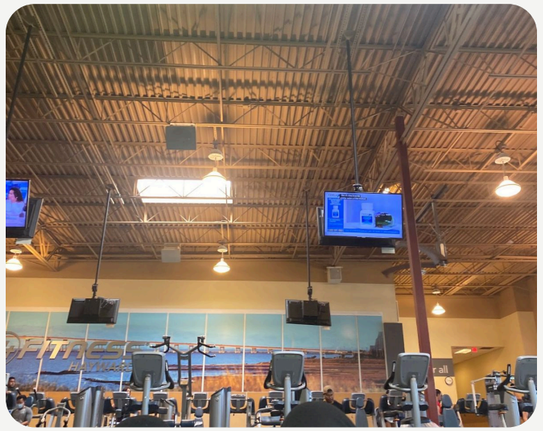

COMMERCIAL BUILD-OUTS

BARE WALLS → OPEN DOORS.

Restaurants, gyms and showrooms.
Wired up and ready for opening day.

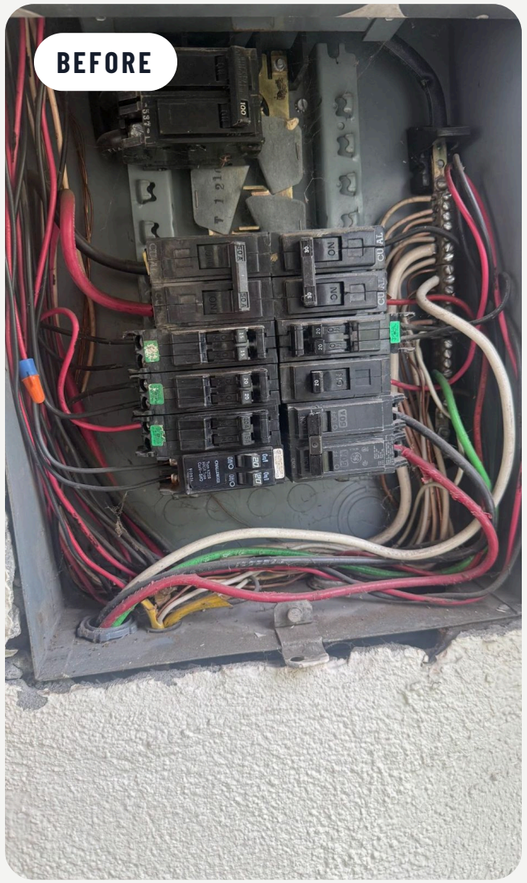

OUT WITH THE OLD.

New panels, meter banks, generators and battery backup.

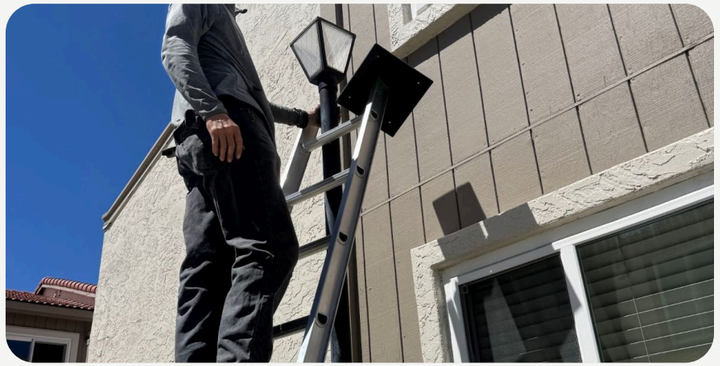

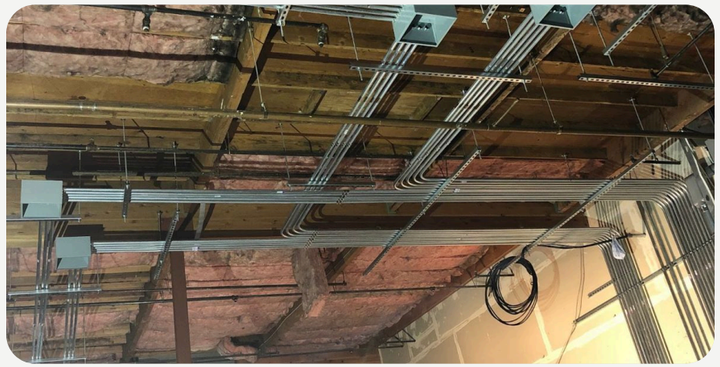

ON THE JOB

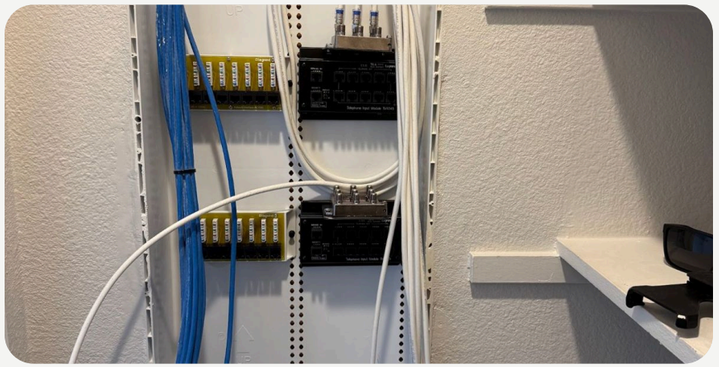

WHEN THE LIGHTS GO OUT, WE COME TO THE RESCUE.

HOW YOU CAN HELP ME

WHO I'D LOVE TO MEET.

HOMEOWNERS

Remodeling, adding an EV charger, or stuck with an old panel

BUILDERS & DESIGNERS

Got a client with a big vision? I'll wire it.

BUSINESS OWNERS

Opening or moving a restaurant, shop or gym

REALTORS & PROPERTY MANAGERS

Panel got flagged on inspection? Send them my way.

LISTEN FOR "Nobody wants to touch this job" or "My breaker keeps tripping."

THANKS, BNI PREMIERE
